

THE JERRY BEHRENS FOUNDATION

“Our objective is to provide assistance to Natrona County or Wyoming veterans/active duty military or first responders and their immediate families who are in need of financial assistance in times of medical or personal crisis.”

About the Foundation

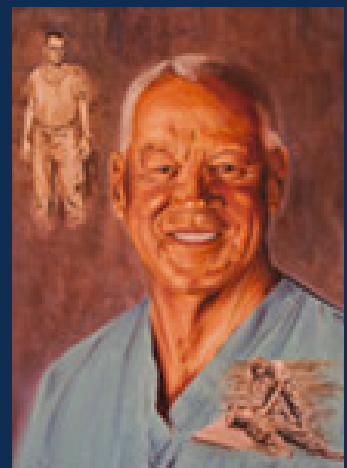

The doctors and staff at Casper Orthopedics, in recognition of Dr. Behrens' lifelong achievements and to carry forth his commitment to community service, have established the Jerry Behrens Foundation to serve military, law enforcement, and fire & rescue personnel. Casper Orthopedics will be funding the administrative cost of services so that all financial contributions to the Foundation will go directly toward assisting veterans, active duty military, first responders and their immediate families who are in need of financial assistance.

2020 Recipients

Mr. Jacob Henry was the recipient of the Jerry Behrens Scholarship at Casper College.

Sherry Johnson received assistance with her utilities bills.

Western Vista Credit Union received \$1000 for “Christmas for Veterans.”

Foundation Updates:

The Lander Volunteer Fire Department Pipe Band hosted a free virtual concert featuring tunes such as Little Drummer Boy and Auld Lang Syne. Channel 13 will be featuring highlights over the holidays expressing appreciation for first responders amid Covid-19. We are grateful to the nearly 20 sponsors who supported this PSA.

The Jerry Behrens Foundation is pleased to announce a scholarship fund to be awarded to eligible students. Eligible students must be either a first responder, a veteran, or an active military service member taking at least six credits and maintaining a minimum of a 2.0 GPA.

The Jerry Behrens Foundation application is now included whenever the Local Assistance State Team (LAST) program is activated. The LAST program is a collaborative effort between the Department of Justice, Bureau of Justice Assistance, and the National Fallen Firefighters Foundation. To best assist families and departments who had lost a firefighter in the line of duty, these agencies realized that they needed to have trained personnel on the ground and available to help when requested within six hours of death.
